

/home/herik/CPPWebFramework
/CPPWebFramework/cwf/properties.h

```
graph TD; A["/home/herik/CPPWebFramework  
/CPPWebFramework/cwf/properties.h"] --> B[QString]; A --> C[QStringList];
```

The diagram illustrates a file inclusion relationship. A top box contains the file path `/home/herik/CPPWebFramework/CPPWebFramework/cwf/properties.h`. Two blue arrows point from this box to two separate boxes below it, labeled `QString` and `QStringList`, indicating that the top file includes these two headers.
